BACKGROUND OF THE KEYSTONE WING

Release
February 2004

In 1986, the Keystone Wing was formed in Pittsburgh, PA by a group of CAF members. The Keystone Wing of the Commemorative Air Force is a local part of a national organization, the CAF. All of our staff and members are volunteers. We restore and maintain WWII aircraft in flying condition for the general public to view in such places as airshows and flying demonstrations.

About one year after the Keystone Wing was formed, we were assigned an L-5 aircraft by CAF headquarters in Texas. Over the next two years, the aircraft was completely restored. For over the last ten years we have displayed the L-5 at airshows all over the country.

We have recently started restoration on another aircraft, a Stinson L-9. When work is completed, it will join our L-5 on the airshow trail.

Since 1990, we have hosted a WWII-style Hangar Dance at our home base at Allegheny County Regional Airport. Live Big Band music, a display of historic aircraft, and great food are just a few of the things our guests enjoy every year.

While all of these activities are a lot of work, they are also very rewarding as we are preserving an important part of our nation's heritage. Anybody can become a member of the CAF and the Keystone Wing. You don't have to be a pilot or have any special skills, just a love of historic aircraft. We also hold regular monthly meetings that anyone can attend and meet us and learn more about us in person. Learn all about us at our website: www.c4ever.com/keystone.
