Compensation for Airshow Appearances

Stinson L-5 N2581B

March 8, 2005

There are two basic options available to bring the L-5 to your event. Please understand that the listed rate schedule for this Aircraft is considered as "break even" pricing. These cost are predicated on the "High" cost of Insurance, Avgas and a maintenance program that assures this plane will be as safe and reliable as any at your show. This is a 1945 Stinson Air Ambulance, one of the rarest models of the L-5 configuration. This particular airplane has a rich history with the Army Air Force, Marines and Navy.

With 2005 being the 60th anniversary of the end of WWII, we are pleased and thrilled to be able to offer this pristine 60 year old flying example of American Military Aviation History.

OPTION 1

- ◆ \$500 appearance fee.
- ◆ \$75 per hour flying fee.
- ◆ One double hotel room for crew.
- ◆ Ground Transportation
- ◆ Fuel if we fly in your show and a top off of fuel before we leave.
- ◆ We pay for fuel and oil for flying time to and from your event.

OPTION 2

- ◆ \$675.00 appearance fee.
- ◆ One double hotel room for crew.
- ◆ Ground Transportation
- ◆ Your event pays fuel and oil for flying time to and from your event, and if we fly in your show. (This option generally works best for a Promoter or Air Show that has the commitment of a sponsor for the fuel to either be donated, or at a reduced price.)

The above flying fees and fuel requirements also apply to any flight demonstrations during the course of your event, should you wish us to do so. We use fuel at the rate of 12 gallons per hour.

Distance limitations are determined by the Air Show, or event's willingness to pay the fees. **"Have Plane, Will Travel"**

Fuel required: 100LL AVGAS
Oil required: 40wt, non-detergent
Cruise speed: 100mph "depending on winds"
Flight restrictions: Day VFR
All flying subject to weather or mechanical breakdown.
